BE COMPETITIVE IN YOUR MARKET

Trinity Machine Works is a contract manufacturer of precision machined component parts and assemblies.

OUR MISSION

Improve our customer's competitive position in the marketplace:

We can make your process more efficient by delivering *on time* and *just in time*.

We can deliver parts *turnkey* and *reduce your procurement costs*.

We can deliver products dock to stock to *reduce or eliminate inspection costs*.

We can *reduce lead time* to react to market changes.

We can manufacture a *family of parts and provide sub assemblies*.

OUR COMMITMENT TO OUR CUSTOMERS

We will grow as needed to continually satisfy our customers' needs.

We have the larger equipment required to produce parts for the offshore segment of the industry.

If we don't have the equipment, we will purchase the necessary equipment to make your parts.

Relationships are our foundation and the key to our success

You can expect a relationship that is significant, long term, and mutually beneficial.

We are determined to exceed your expectations.
